# ABOUT MUKUA

MUKUA goes beyond being a promotional textile brand; it is a meeting point where creativity and quality come together.

COMFORT

VERSATILITY

STYLE

CUSTOMIZATION

DESIGN

SUSTAINABILITY

## What does MUKUA offer you?

### WIDE RANGE OF COLORS

Our Colour Link system shows available garments that share the same color, allowing you to combine different models with perfect chromatic coherence.

### GUARANTEED STOCKS AND FAST DELIVERY

At MUKUA, we have a large stock to handle high volumes and ensure fast y efficient deliveries.

### ADVICE AND IN-HOUSE MARKING WORKSHOP

We offer specialized advice on customization techniques such as embroidery, DTF, or screen printing, with our own workshop guaranteeing top-quality results and attention to detail.

### QUALITY-PRICE AND PERSONALIZED SERVICE

The best value for money combined with close, personalized attention tailored to each client's needs..

# Greenproject.

by Velilla Group

**For years, at Velilla Group we have been working with a future-oriented vision, developing a solid value proposition for our clients and generating a positive impact on the environment around us.**

We are firmly convinced of the key role that companies play as agents of social transformation. That's why we take responsibility for actively contributing to long-term sustainable development, ensuring respect for social and environmental needs.

In this context, the **Green Project** was born—a program that encompasses and drives our action plan and environmental commitment, reaffirming our dedication to a more conscious, responsible, and sustainable business model.

More information at: [www.velilla-group.com/en/greenproject](http://www.velilla-group.com/en/greenproject)

## The 3 pillars of the Green Project are:

### Support for sustainable initiatives

- Reduction of physical prototype samples.
- Monitoring our carbon footprint.
- Reduced paper consumption and responsible printing of our catalogues.

### Sustainability projects

Development and research of projects that contribute positively and tangibly to society, creating sustainable development.

### Product – New developments

Launch of sustainable lines with certifications that guarantee the use of organic and recycled materials.

[velilla-group.com](http://velilla-group.com)

### This catalogue is printed on PEFC certified paper

The raw material comes from forests certified by independent experts to ensure that they are managed according to strict national and international standards. In this way, we contribute to halting deforestation and are supporting foresters and forest owners who care for and manage their forest land sustainably.

# VelillaGroup.

We comply with the most demanding environmental standards on the market

## ● ISO 14001

We are certified with ISO 14001, an internationally recognised standard for Environmental Management Systems. This recognition supports our commitment to environmental protection, the efficient use of resources and the sustainable management of all our processes and operations.

It also establishes a process with clear objectives for continuous improvement, aimed at reducing our environmental impact at every stage of our activities.

## ● ISO 14006

Our ISO 14006 certification reflects our efforts in developing an Ecodesign management system, designed to reduce the environmental impact of our products throughout their life cycle, from the design phase to their final disposal.

## ● CARBON FOOTPRINT

We verify our Greenhouse Gas Emissions Inventory under the GHG Protocol standard, ensuring an accurate and transparent evaluation process. This allows us to know the tonnes of CO<sub>2</sub> generated by our activities and to set targets for their reduction or offset.

## ● AMFORI

We are a member of AMFORI, the world's leading association for sustainable trade. This achievement supports our daily commitment for ethical and sustainable business practices in our global supply chains.

## MUKUA natura

In Velilla Group we are very aware of the environment and the environment that surrounds us. For this reason, we have been certified in the most demanding national and international standards.

Our MUKUA NATURA range is composed of garments that comply with the Global Recycled Standard [GRS], Recycled Content Standard [RCS], Organic Content Standard [OCS] and OEKO-TEX. Find out more about this collection and its certifications on **P. 15**

# WHAT'S NEW !

Discover all the new features in our new catalog!

# Join the change

The products in our **MUKUA NATURA** line have a reduced environmental and social impact, backed by specific certifications.

TE-ID 00106116

Velilla Group is OCS certified. Only the products which are covered by a valid transaction certificate are OCS certified.

## Organic Content Standard [OCS]

This standard certifies that garments are made from organic materials and have a lower environmental impact throughout the supply chain.

TE-ID 00106116

Velilla Group is RCS certified. Only the products which are covered by a valid transaction certificate are RCS certified.

## Recycled Content Standard [RCS]

Ensures that our products labelled under this standard contain recycled materials and are traceable from their origin to the final product. All MUKUA garments with this certification are made from up to 50% recycled material.

TE-ID 00106116

Velilla Group is GRS certified. Only the products which are covered by a valid transaction certificate are GRS certified.

## Global Recycled Standard [GRS]

This seal ensures that rigorous requirements are met in terms of recycled material content in the garment, traceability of the chain of custody, responsible use of chemicals and best social and environmental practices in the production process. You can find this certification on all our garments containing at least 50% recycled material.

**STANDARD  
100**

## OEKO-TEX

Our products guarantee the absence of harmful substances in both fabric and garments and that is why you can find the OEKO-TEX STANDARD 100 seal on all our garments. This Standard ensures compliance with the European Union REACH regulation that restricts the use of chemicals and heavy materials harmful to health.

# PRINTING WORKSHOP

## DO YOU KNOW OUR CERTIFIED PRINTING WORKSHOP?

We have our own certified printing shop to support our customers in their projects, offering a comprehensive and efficient service.

We are committed to a sustainable future, which is why our workshop is one of the pioneers in being certified under the Textile Exchange standards (RCS, GRS, and OCS). If you choose to customise the MUKUA NATURA collection in our workshop, we can guarantee its certification and full traceability through the recycled material (RCS and GRS) and organic material (OCS) certifications.

Consult your account manager for more information.

## WE OFFER YOU THE FOLLOWING SERVICES:

---

### VINYL TRANSFER

This technique is known for its versatility, as it allows the application to almost any fabric or garment. It is therefore suitable for any of the products in our catalogue.

It is a very fast technique and one of the simplest. At the same time, it offers the possibility of working with vinyl with different reliefs and textures.

### DIGITAL TRANSFER (DTF)

Thanks to its composition with a high cotton content, this simple marking technique is suitable for all types of garments.

Digital transfer (DTF) is one of the most advanced marking techniques, its success lies in its great resistance over time, due to the heat application when fixing the design. Ideal for complex markings, it allows printing both large and small volumes, without quantity restrictions.

### SCREEN PRINTING

Our T-shirts, polo shirts and sweatshirts are perfect for screen printing all your creations.

This popular technique is ideal for large print runs, as there is no risk of loss of quality of the personalisation, and it is very durable.

In addition, it is possible to combine different inks to obtain a multitude of different effects.

### EMBROIDERY

A great classic that never goes out of style. It stands out for its durability and the high quality of its finish, which is why it is not only used in the corporate sectors.

Did you know that you can also combine screen printing techniques with embroidery? You can choose to apply it to any of our garments, as all of them are suitable for this technique.

### ADVICE

To support you in your projects and provide you with the best service, we have a printing advice service available to all our customers.

Whatever your project, our team of professionals will help you choose the most suitable customisation technique, considering every detail.

# COLOUR GUIDE

## COLOUR CHART

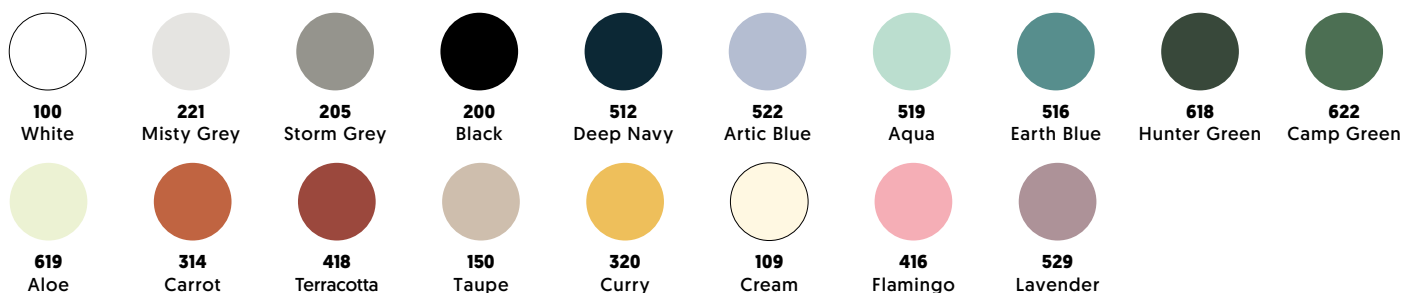

## FLUOR COLOURS

## VINTAGE COLORS

## NATURA COLOURS

The presented colours are merely indicative and may not correspond to the item's exact colour.

# MATERIALS GUIDE

## PRE-SHRUNK RINGSPUN COTTON

This type of cotton, due to the structure of its fiber, reduces the risk of garments shrinking during washing and drying.

## RINGSPUN COTTON

Our T-shirts are woven with high-quality RingSpun yarns, offering an exceptionally soft feel, flawless print quality, and outstanding consistency after repeated washes.

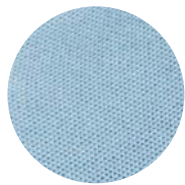

## SINGLE JERSEY

It is a type of technique for knitted fabric, popular for its lightness and elasticity. You can find it in our T-shirts, to which it gives more flexibility and comfort.

## CANALÉ KNIT

This type of fabric, mainly found in the collars and cuffs of our garments, gives them greater elasticity and a lower risk of deformation.

## PIQUÉ KNIT

This is a fabric which, due to its honeycomb structure, is mainly used for making polo shirts. Ours, in particular, offers superior durability and a better finish.

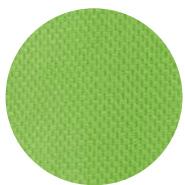

## COTTON TOUCH KNIT

The 100% polyester knit fabric with a cotton-like feel stands out for its softness, lightness, and elasticity, offering great versatility for a wide range of textile applications.

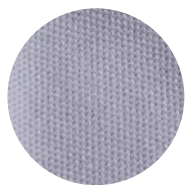

## BRUSHED FLEECE

Our sweatshirts, made of cotton-polyester, have a quilted inner brushed finish that provides extra warmth and softness.

## BIRD EYE

This material, made from 100% polyester, provides great freedom of movement and lightness, along with quick drying and easy ironing, making it ideal for sportswear.

## MICRO BIRD EYE

High-performance fabric with micro-mesh that enhances ventilation. Quick-drying and moisture control to keep you cool and dry. Ideal for activewear thanks to its breathability and durability.

## ELASTANE

Elastane is a synthetic fibre known for its high elasticity. Our garments contain elastane components in collars and cuffs to avoid deformation.

## TWILL

Twill is a fabric constructed with parallel diagonal threads. Due to its structure, even though it is a lightweight fabric, it is a durable and resistant material.

## POLAR

The polar fleece fabric is developed to insulate you from the cold and resist moisture without sacrificing breathability. In addition, it will provide you with unique softness and comfort.

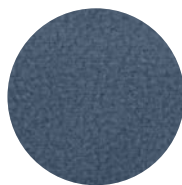

## SOFT SHELL

Our two-layer soft shell fabric offers the perfect balance between protection and comfort. It stands out for its repellence, breathability and elasticity.

## TAFETÁN

Windbreakers and padded garments are made with a fine polyester/polyamide fabric, soft and durable, which provides structure and features a compressed internal design that makes washing easier.

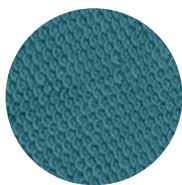

## MICROPOLAR

Warm, lightweight fabric with a soft touch. Provides excellent thermal insulation without adding weight. Breathable, comfortable, and quick-drying—perfect for everyday use.

## POLYESTER MESH

Lightweight, durable, and highly breathable mesh fabric, ideal for providing ventilation and comfort. Commonly used in trucker caps, it allows excellent air circulation.

## FRENCH TERRY 100% COTTON

Knit fabric with a looped interior and a smooth exterior. It offers an excellent combination of comfort, breathability, and natural stretch.

## DOBBY WOVEN

Fabric with small geometric patterns creating a textured surface. It is valued for its elegance, durability, and versatility.
